

### AUTO CORRECT

So this is shady: While the average car windshield has an SPF of about 50, most side windows clock in at just around SPF 16, according to Debra Levy, president of the Auto Glass Safety Council. No wonder that the majority of all skin cancer cases occur on the left side of the body. As always, **SPF 30 is a must (use an extra layer on your left if you're driving; right, if you're shotgun)**, says Steven Wang, M.D., director of dermatologic surgery at Memorial Sloan-Kettering Cancer Center in Basking Ridge, New Jersey. For more protection, consider UV-blocking film. Llumar shields you from 99 percent of UVA and UVB rays, carries the Skin Cancer Foundation Seal of Recommendation, and comes in clear or tinted (prices range from \$200 to \$500; find a dealer at Llumar.com).

• *Don't let sun damage be your road-trip souvenir.*

#### LOVE IT TO BITS!

Pretty much every woman has a mascara (or 10) in her tool kit. Seventy-five percent of us wear it every day, according to the NPDP Group. Here, three cool new ways to lash out.

1

**Buxom Mascara Bar:** Customize your lash effect by choosing among seven brushes—fat, skinny, curved, and more (\$22 for a brush and mascara, sephora.com).

2

**Urban Decay Mascara Resurrection:** This clear serum remoistens your a.m. mascara so you can apply more midday, minus spidery clumps (\$16, sephora.com).

3

**Chantecaille Supreme Cils Mascara:** A waterproof formula that releases with a warm water wash. Seriously: no soap, no struggle (\$52, at Neiman Marcus).

#### Touch and Go

Scented body washes smell great...but they barely outlast your shower. Caress fixes that with its Forever Collection, touch-activated formulas that release a rose-based scent every time your skin is stroked (by you or someone else); the fragrance lasts up to 12 hours. Whether you choose berryish Love Forever or amber-rich Adore Forever (\$4 each, at drugstores), you'll be smitten.

# five

THE MAXIMUM NUMBER OF MINUTES YOU SHOULD LEAVE CONDITIONER ON YOUR HAIR—EVEN IF YOUR STRANDS ARE DRY AND DAMAGED. (IF YOU HAVE HEALTHY, UNPROCESSED HAIR, A MINUTE SHOULD DO THE TRICK.) LET IT MARINATE LONGER AND YOU'RE LOOKING AT THE POSSIBILITY OF LIMPNESS AND AN EXTENDED BLOW-DRY TIME, SAYS HAIRSTYLIST MARIO RUSSO, OWNER OF SALON MARIO RUSSO IN BOSTON. "THE CONDITIONER CAN PREVENT AIR FROM PENETRATING AND DRYING THE FOLLICLE."
